Subject: publication date

Dear IOS,

I am a patent examiner at the US Patent Office and I need to determine the exact date (day and/or month) of publication (electronic and/or paper) of an article in Volume 11, Issue 4 of Human Antibodies (pages 107-119).

All that I can determine from the electronic version is that it was published in 2002.

Any help would be appreciated.

Sincerely,

Peter Reddig
